# Your Guide to Switching from Teamplace to luckycloud

#### Download files stored in Teamplace

- Log in to Teamplace on your **PC** or **Mac** and open your first Teamplace.
- Select all the files and download them. You will receive a zip file with all your files.
- Repeat the process for all your Teamplaces.

- Repeat the process for all your zipped Teamplace files so that the content of each Teamplace is saved in a folder.
- You can now save all your Teamplace folders in a new folder to upload it to luckycloud.
- This preserves the original structure of your individual Teamplaces.

#### Create a luckycloud account

- Open the luckycloud website <a href="https://luckycloud.de/en/?ref=teamplace">https://luckycloud.de/en/?ref=teamplace</a> and create an account by clicking on "Test for free".
- Select the "Secure cloud services" product and choose one of the products on offer.

### Download and install Sync Client from luckycloud

- Download the Sync Client for your operating system (Windows, Mac, Linux).
- To do so, log in to luckycloud and select Dashboard → Downloads.

8	Security Here you can find setting	s to secure your luckycloud account.	
↓	Downloads Download your required DSGVO.	programs, instructions and documents according to EU-	Ň

• Install the Sync Client on your device. You can find detailed instructions on the luckycloud website at <a href="https://docs.luckycloud.de/en/cloud-storage/sync-client">https://docs.luckycloud.de/en/cloud-storage/sync-client</a>

•	Log in to	luckycloud	at the end	of the suc	cessful insta	llation.

#### **Upload Teamplaces in luckycloud**

- Start the "Simple setup". In the next step select "Skip", if you do not want to download your default directory.
- Drag and drop your Teamplace folder (in which all your individual Teamplaces are located) into the lower field of the Sync Client to upload it to luckycloud. The folder structure is retained when uploading. Alternatively, you can also select it by clicking on the plus button.

	0 kB/s↓ 0 kB/s↑

- Then confirm your folder selection, your directory name, and the summary.
- Your files will now be uploaded to luckycloud. Once synchronization is complete, your new directory will have a green frame.
